

Solidscape 3D printer T76+

Prospekt
Uporedne karakteristike

- Primeri upotrebe: Zlatarstvo 1 / Zlatarstvo 2 / Ostalo

- Odgovori na èesto postavljana pitanja

- Proraèun troškova upotrebe printera

The Solidscape T76®+ is targeted at the traditional jewelry manufacturing company or higher volume service bureaus. Its more robust design delivers a higher duty cycle than the R66+ to accommodate the higher throughput requirements of the manufacturer versus the studio or custom retail jeweler.

The T76+ is also used throughout industry where small, high precision investment casting patterns are required.
